SUMMARY:

As a Full-Stack Developer with a front-end focus, I craft intuitive and visually appealing user experiences while ensuring seamless backend integration.

TECHNICAL SKILLS:

- ReactJS, TypeScript, Redux, CSS Animations, NodeJs, ExpressJs, MongoDB, NextJS

EXPERIENCE:

Founding Front-end Developer - TAG Capital, Berlin (Remote) | December 2024 - Present

- Spearheaded the front-end development of a fintech platform, enhancing user experience and optimizing performance.
- Leveraged React, Redux, TypeScript, and Tailwind CSS to build dynamic and responsive interfaces, ensuring seamless interaction for users.

Front-end Developer - Cappsule | June 2024 - Present

- Led the front-end development of an interactive pharmacy platform using React, Redux, Javascript, and SCSS, enhancing the user experience for medicine, salt, and other product searches and purchases.
- Collaborated with cross-functional teams to ensure a seamless, responsive, and visually appealing user interface, optimizing for performance across various devices and browsers.

Founding Front-end Developer - Dream Bridge | Feb 2024 - Nov 2024

- Pioneered the front-end development of an interactive education platform at Dreambridge, focusing on empowering educators to engage effectively with students.
- Utilized React, Redux, TypeScript and Tailwind CSS to architect and implement user-centric features, enhancing usability and accessibility.

WordPress Developer - Nexus Marketing Agency | Aug 2023 - Nov 2023

- Developed the website and Coordinating with the Designers, Content team, and Backend team.

UI Developer - The Dreamer Designs | Sept 2021 - July 2023

- Developed designs from PSDs and made them responsive for all screen sizes

PROJECTS:

[\[Link\]](#) GitHub Profile Comparison Web App

- **About:** Web app that allows users to compare GitHub profiles by entering usernames. It displays a comparison graph and a meme based on the difference in commit numbers.
- **Tech Stack:** ReactJS, Chart.js, GitHub API, Canvas, TailwindCSS, JavaScript, open API

[\[Link\]](#) Blog Website

- **About:** React-based personal blog project, implementing features such as user authentication, post creation, editing, and viewing. Utilized React Router for navigation and Redux for efficient state management.
- **Tech Stack:** ReactJS, Redux, TailwindCSS, Appwrite, RealTimeTextEditor, React-hook-form

EDUCATION:

Oriental College of Commerce & Management, Mumbai University | Bachelor of Management Studies | June 2017 - November 2020
